The **XC-30B MercSampler Console**, designed especially for performing Method 30B, simplifies sampling requirements by automating data acquisition, sample flow adjustments, leak checks, calculations, temperature control, and calibrations. Data is easily transferred to a Microsoft Windows Based PC through USB Interface. The XC-30B MercSampler performs dual sorbent trap sampling at flow rates up to 2.0 lpm. It can be operated with your choice of probes and gas conditioning systems, including our popular SGC-4000HGP Stirling Gas Conditioner. *Please contact your sales representative for more details.*
