

## Stainless Steel Impingers Condenser Assembly Part # SN-5C

Stainless Steel Impingers and Accessories are manufactured with #28 Ball and Sockets, 2" diameter and a 750ml capacity. Stainless Steel Impingers are interchangeable with glass impingers for many applications. This kit includes the standard method 5 configuration: 3 plain stem impingers and 1 with an orifice. This new design makes it easier to add ice to your impinger case.
